

# test your i-Guide i.Q.

TV Guide's i-Guide™ is the next generation of interactive programming guide. Are **you** ready to guide a customer through **i-Guide**? Let's find out:

- 1 ..... Many customers will be surprised to get the new **Quick Menu** (instead of the **Main Menu**) when they press the **MENU** button once. To get to the **Main Menu**, viewers must press the **MENU** button \_\_\_ times.
- 2 ..... The new **Quick Menu** provides \_\_\_\_\_ to the features of the program guide.
- 3 ..... **i-Guide's** enhanced searching lets customers sort and view program listings By \_\_\_\_\_, By \_\_\_\_\_ and by category such as Movies, Sports, Children and more.
- 4 ..... To access information on a program while viewing it, press the \_\_\_\_\_ button on the remote. Here, viewers can read a longer description about the program.
- 5 ..... **Parental Locks** allow customers to restrict viewing and purchasing of objectionable TV programming. To place a lock on selected ratings, channels and titles, the viewer must set a 4-digit \_\_\_\_\_.
- 6 ..... **On Demand** is an exciting feature that allows customers to watch movies and programs whenever they want! With **On Demand**, you can even pause, fast forward and \_\_\_\_\_.
- 7 ..... Can you match the **On Demand Action Icons** to their function?

Go back to the previous screen

Order the program, or cancel an ordered program

Tune to a program (for some free and subscription programming)

Preview

Place a lock on the program to restrict viewing

Resume play of the video (appears for purchased videos)

Restart the video from the beginning (appears for purchased videos)

Delete the title from your rented titles list (appears for purchased videos)

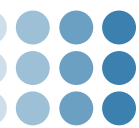

Indicates the program is available as a package

8 ..... **DVR** lets customers record programming, control live TV and more. **DVR** stands for \_\_\_\_\_.

9 ..... In **i-Guide**, \_\_\_\_\_ is the highlight color on every screen.

10 ..... In **i-Guide**, TV listings are color-coded to help customers identify different types of programming. Blue for regular programs, purple for movies, light blue for children's programs and green for \_\_\_\_\_.

## How'd you do?
